Priam Vineyards Tour & Wine Tasting:

The guided tour consists of an explanation of the grape growing and wine making process as pertains to Cochester's unique viticulture district. Our group will be taken into the vineyard (weather permitting) or wine cellar, allowed a question and answer period, then we will come into the tasting room to sample Priam's present wine selection. A Priam Vineyards wine glass is Priam's gift to each person participating in the tasting.

Priam Vineyards was founded in 1998 in the historic town of Colchester, CT by Gloria Priam and her husband Gary Crump. The vineyard was

named for Gloria's grandfather, Andrew, who had vineyards in Hungary in the early 1900's. They started with the intent of being growers, but quickly escalated

to a winery as they realized the quality of product being produced from their land. In 2002, Priam Vineyards became a licensed farm winery, and opened to begin marketing their wines in April of 2003.

Priam Vineyards has won numerous International wine competition medals in their first few years as a winery. Of the thirteen wines produced, each has been awarded at least one if not several international medals. These wines are produced in the style of Northern France and Germany.
