# Hartford Section Facility Tour

## Mohegan Sun Fuel Cell Facility Tour

Source: UTC Power

Hosted by: Jean E. McInnis  
Environmental Protection  
Administrator, Mohegan Sun

Join us on October 20th for a free tour of Mohegan Sun's fuel cell facilities and to hear a presentation of the Mohegan tribe's work in building a world class casino resort embracing best in class ecological practices!

The Mohegan Sun resort is recognized as a world leader in environmental sustainability and serves as a classroom to teach and promote environmental stewardship to visitors from around the world.

Our host will be tribe Environmental Protection Administrator Jean E. McInnis, who, along with representatives from UTC Fuel Cells and the Connecticut Department of Environmental Protection, will discuss the tribe's use of recycling, environmentally friendly materials, energy efficiency, alternative energy (including fuel cells and photovoltaics), and carbon sequestration to operate one of the world's "greenest" facilities.

Jean E. McInnis, CHMM is a certified hazardous materials manager with a bachelors degree in Environmental Engineering Technologies from University of Connecticut and a masters degree in Environmental Science from University of New Haven, CT.

**TIME:** 10:00 AM
