

February 25, 2010
Southern CT ASM Technical Meeting

Topic: Weldability of Haynes 282 Alloy
Speaker: Dr. Henry White of Haynes International

Dr. White's presentation will be focused on the development of Haynes 282 Alloy for potential applications in aircraft and land based gas turbines and other high performance high temperature environments. The 282 alloy combines exceptional high temperature properties with good weldability and fabricability. Dr. White will discuss welding characteristics and mechanical properties that can be achieved in welded sections.

Dr. White has a B.S. in metallurgical Engineering from Polytechnic University, M.S. in Materials Science and Engineering (Welding Technology) from The University of Tennessee, Knoxville, and a Ph.D in Materials Science and Engineering from SUNY Stony brook. Dr. White was a member of the faculty at Stony Brook University. His is a member of the Metallurgical and Materials Professional Engineering Registration committee, a Materials Science Program Evaluator for the Engineering Accreditation Commission for the Accreditation Board of Engineering and Technology, and is a registered Professional Engineer in the States of New York and Indiana.

Location of Meeting: Sunset On 384, 384 East Main Street, Ansonia, CT 06401

5:30-6:30pm.....Social Hour

6:30-7:30pm Dinner

7:30-8:30pm Technical Presentation

Meal Choices: New York Strip Steak, Chicken Parmesan, Broiled Scrod

Member/Guests/Retirees: \$25 ,,,,,,, Students \$10

Reservations Must be Received by or before Noon Tuesday, February 23, 2010

Telephone: 860 747 6333 X3294

e-mail: jsteele@mottcorp.com

Members unable to attend the dinner are cordially invited to attend the technical presentation at 7:30pm
